**Introducción. ¿Se han polarizado las percepciones de conflicto?**

*“The rich and the poor in a country with a highly unequal distribution of wealth . . . may live next to each other, but their lives do not intersect. . . . In such societies, neither the rich nor the poor have any sense of a shared fate. . . . In turn, each group looks out for its own interests and is likely to see the demands of the other as conflicting with its own well-being.”*
